

The Children's Center at Caltech

Educator Tours

Thank you for your interest in **The Children's Center at Caltech**. Since 1972, we have been offering a high quality child care and education for children ages six month to six years. In 2000, our research led us to adopt STEM (Science, Technology, Engineering and Mathematics) curricula as a focus of our early childhood program. As leaders in STEM Early Childhood education, we launched ECSTEM (www.ecstem.org) in 2011, and host an annual conference bringing together educators, policy makers, researchers and other vested community stakeholders to address the needs of our youngest citizens.

Due to the overwhelming demand for tours of our facilities, and requests for professional growth workshops, we have formed a Professional Development Division (PDD) that arranges tours, on-site visits and workshops.

The Children's Center at Caltech offers educator tours Monday through Friday from 9am – 11am with our Executive Director, Susan Wood, M.A. and our Associate Director, Veronica Dayag, M.A.

During the educator tour, you will see our STEM based program in action. You will walk through our nine classrooms, infants to preschool. Additionally, you will have a firsthand look at our award winning outdoor STEM laboratory.

To schedule an appointment, please contact our office at 626.395.6860.

Please note that photography is NOT permitted during the tour.

REGISTRATION INFORMATION:

NAME: _____

ORGANIZATION: _____

ADDRESS: _____

PHONE NUMBER: _____

EMAIL ADDRESS: _____
